

California OES Weather Threat Briefing

Thursday, August 6, 2020
9:00 AM PDT

- **Day 1 (Thursday):** Breezy conditions across southern California with elevated fire danger today. A few isolated thunderstorms also possible across the Sierra later this afternoon and evening.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

08/06/20 - 08/12/20

Thursday-Sunday

- Breezy conditions continue across much of southern California this afternoon, elevating the risk for fire spread
- Isolated thunderstorms are expected each afternoon through Saturday along the Sierra
- Temperatures gradually warming up into the weekend, with moderate heat impacts developing for the Inland and Southern valleys by Sunday

Monday-Wednesday

- Low to moderate heat impacts continuing early in the week for Southern and Inland valley locations
 - Most widespread hotter temperatures expected Monday
- Elevated fire weather concerns statewide through much of next week as mainly dry conditions prevail
- Isolated thunderstorms remain possible each afternoon across the Sierra, but widespread precipitation is not expected
